(EF SET 68/100 — Aug 2026)

Summary

Graphic and web designer with 9 years of experience across brand, digital content and front-end for Chile, Colombia and Brazil. At ComparaOnline I built the 2026 Brandbook in Figma, designed and coded a landing prototype scaled to 21 B2C product pages (34% desktop / 32% mobile quote conversion), and automated the blog content pipeline with generative AI, saving the team 20 hours per week. I combine visual direction, motion and code to keep a brand consistent from the guidelines to the final piece.

Work experience

Web Designer & Developer (Freelance)

2026

- Designed and built the launch landing page for a consumer brand (Vite + JavaScript, GitHub Pages): scroll-synced hero animation, consent-gated GA4/Meta/TikTok analytics and JSON-driven content.

Art & Design Specialist, ComparaOnline

01/2021 – 08/2026 · Fintech (rehired in 2021)

- Created the company's 2026 Brandbook from scratch in Figma, the foundation for all marketing and communication assets.
- Designed and coded (HTML, CSS, JavaScript) a landing prototype scaled to 21 B2C product pages, A/B tested with AB Tasty and Heap: 34% desktop and 32% mobile quote conversion.
- Migrated 120+ articles of the “El Comparador” blog from HubSpot (6–8 writers, 1 editor) and automated publishing with Claude Code, Notion and GitHub: from 3–4 manual hours a day to a single command (20 hours freed per week).
- Delivered sales (Cyber, Black Friday) and brand campaigns for Chile, Colombia and Brazil, with 45–50 assets per country each (web assets, ads, social, banners, email), keeping the brand consistent across markets.
- Produced social and TikTok video content with After Effects, Higgsfield and Kling AI, aligned with brand guidelines.
- Led a 5-week generative AI exploration cycle assigned by management: experiments combining tools (Kling, Higgsfield, Claude Design, among others) to produce brand pieces and test new workflows.
- Worked in Shape Up (5-week build cycles plus planning cooldowns) with quarterly goals, partnering with sales and content teams.

Graphic Designer, ComparaOnline

11/2019 – 03/2020

- Managed video and visual content for Chile and Colombia: social media, email marketing and ad campaigns.

Graphic Designer, Artespectáculo Ltda

03/2019 – 08/2019

- Event design and production: client mockups, interactive contests on modular screens, video coverage, website and social media.

Graphic Designer (Freelance), Being Consulting and Ventures

08/2018 – 01/2019

- Social media management and content creation for the ChileFacilitadores project.

Graphic Designer, Mouton (retail)

03/2017 – 08/2018

- Packaging (including a custom self-assembling box) with print vendors, catalogs, campaign assets, product photography, website and social media.

Education & certifications

Digital Illustration, Professional Illustrator track — I.P. ARCOS (Chile)

2013 – 2017

Intensive self-directed training in Web Design and UX/UI (Domestika)

2020

EF SET English Certificate — C1 (68/100)

2026
